# Message from CEO

I feel very privileged to be writing this message and I am delighted to be joining the Falcons International Company as a main partner and Chief Executive Officer. It is very exciting to be working with the team and to be using my experience to lead Falcons through the next stage in its journey, delivering value to the business and all its stakeholders.

Let me give you a brief about myself and my previous experiences, after spending almost 30 years with Saudi Aramco I gained a lot of experience in different fields and positions as a Contract Advisor in the Contracting Department which handles all Saudi Aramco Projects from Small to Mega Projects, also I worked in the Industrial Development & Strategic Supply Department as a Lead Supply Chain Analyst where all International and Local Manufacturers are evaluated and obtained the final approvals. Now I am transferring all my previous expertise and knowledge to my own company.

Falcons International Group is truly “a building force”. Since its modest beginnings as a general contractor over 2 decades ago, the group has transpired into a trusted partner of major industries providing valuable services and technology. We have successfully and consistently participated in the nation’s Technology Transfer requirements for the past decade, being the first to introduce new means and methods resulting in cost savings, safer working environments, increased efficiency, and reduced downtime.

*Saleh M Al Yami*

Falcons' sustainability framework helps it to maintain the highest standards of business ethics and transparency, empowering our workforce and protecting the environment, and we look forward to further serving our communities.

**Saleh M Al Yami**  
CEO

# Our Vision & Mission

Falcons International General Trading & Contracting Company Ltd. vision is to establish ourselves as a globally recognised and trusted name.
