OUR SERVICES

Falcons International offers a diverse range of services including electro-mechanical projects, fabrication works, facility management, general trading, project support, IT solutions, & consultation services, tailored to client needs.

ENGINEERING & FACILITY

- **Electro-Mechanical**

We provide innovative and efficient electro-mechanical solutions tailored to meet client specifications, ensuring quality, reliability, and advanced technology.

- **Fabrication Works**

Falcons offers customized fabrication services for industrial and commercial sectors, delivering precision-engineered solutions to meet diverse requirements.

- **Facility Management**

We ensure optimal functionality, cleanliness, and safety through comprehensive facility management services, tailored to maintain client properties at peak performance.

GENERAL TRADING

At Falcons International General Trading, we leverage our strategic Middle Eastern location and expertise to provide high-quality products at competitive prices. Our diverse range includes oil & gas supplies, building materials, safety equipment, and more, ensuring reliable solutions for industry leaders across sectors.

EQUIPMENT RENTAL

we provide premium Equipment Rental Services for Oil & Gas, industrial, and infrastructure projects. With advanced machinery, including excavators, cranes, and tankers, and certified operators, we ensure reliable, efficient, and seamless operations throughout your project.

IT & CONSULTATION SERVICES

Falcons International offers innovative IT solutions and professional consultation services designed to elevate your business. Our IT division provides a wide range of services, including server installation, cloud security, network management, and cybersecurity, while our consultation services cover vendor registration, project pre-qualification, safety certifications, financial auditing, and more, ensuring seamless operations and compliance.
